

# DAYBREAK LABS ECO-IGNITER PROGRAM

# Program Goals

**Translate energy breakthroughs to the market via startups.**

## **New Founders + Experience**

Connect inexperienced founders to resources

### **→ Network**

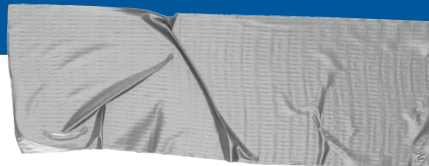

Our network of investors, advisors, and experts to help early stage startups get to their first check, first lab demo, and first of a kind demonstration in the field.

### **→ Training**

Workshops, seminars, and one-on-one mentorship.

### **→ Resources**

Lab space, business formation and other legal services.

## How It Works

Startups licencing DOE National Lab or University of California IP whose technology will decarbonize aviation, shipping, agriculture, communication and solves a regional program with national impact are given priority.

- **Apply** While there are cohorts, applications will also be accepted on a rolling basis. [Apply here.](#)
- **Awards** are **non-dilutive.**

# RESULTS

We have attracted 6 startups in 1 year. In that year, 2 graduated, raising **>\$40M** and relocating to private lab space here in the Tri-Valley.
